Norwegian's reconstruction plan approved

Reference is made to the stock exchange announcements of Norwegian Air Shuttle ASA (the “Company” or “NAS”) dated 26 March 2021 and 12 April 2021 regarding the approval of the proposals for a scheme of arrangement for an exit of the examinership process and the reconstruction process as further described in the stock exchange announcement dated 11 March 2021 (the “Restructuring Proposal”) by the High Court of Ireland and Oslo Byfogdembete respectively.

At the expiry of the appeal period no appeals have been filed and

consequently the Reconstruction Plan is final and binding. The company is consequently determined to complete the reconstruction process on 26 May 2021.

About Norwegian

The Norwegian group is a leading Nordic aviation company, headquartered at Fornebu outside Oslo, Norway. The company has over 8,200 employees and owns two of the prominent airlines in the Nordics: Norwegian Air Shuttle and Widerøe's Flyveselskap. Widerøe was acquired by Norwegian in 2024, aiming to facilitate seamless air travel across the two airline's networks.

Norwegian Air Shuttle, the largest Norwegian airline with around 4,700 employees, operates an extensive route network connecting Nordic countries to key European destinations. In 2024, Norwegian carried 22,6 million passengers and maintained a fleet of 86 Boeing 737-800 and 737 MAX 8 aircraft.

Widerøe's Flyveselskap, Norway's oldest airline, is Scandinavia's largest regional carrier. The airline has more than 3,500 employees. Mainly operating the short-runway airports in rural Norway, Widerøe operates several state contract routes (PSO routes) in addition to its own commercial network. In 2024, the airline had 3.8 million passengers and a fleet of 49 aircraft, including 46 Bombardier Dash 8's and three Embraer E190-E2's. Widerøe Ground Handling provides ground handling services at 41 Norwegian airports.

The Norwegian group has sustainability as a key priority and has committed to significantly reducing carbon emissions from its operations. Among numerous initiatives, the most noteworthy is the investment in production and use of fossil-free aviation fuel (SAF). Norwegian strives to become the sustainable choice for its passengers, actively contributing to the transformation of the aviation industry.
